

# FINE DINING & QUICK CASUAL

## SEGMENT PRODUCTS

This market segment continues to grow and evolve. People are eating out more often and they are moving upscale as their incomes grow and they seek to improve the quality of food they are consuming – not to mention their search for a better overall experience.

Quick Serve restaurant customers are moving up to Quick Casual as they find they are eating more meals away from home and they are widening their search for variety and quality combined with a homey ambiance.

Fine Dining continues to evolve in diversity and raises the bar for a total quality experience.

At the same time these changes are occurring, operators face cost and performance pressures. Having the right products available to control costs, increase efficiency and provide the needed performance are critical.

### TABLE SAVERS

Table Savers are used to present a fresh, clean appearance as well as reduce the expense for linen rental. Changing linen between each seating at a table incurs a linen expense, requires time, labor and can be disruptive in the dining environment. Custom sizes are available as well as custom random prints in 1 or 2 colors.
