

# BPI CERTIFIED

\* Compostable Products

## McNairn Packaging reinforces its commitment

to offering sustainable products with the award of its most recent product certification from BPI (Biodegradable Products Institute). BPI is a professional association of key individuals and groups from government, industry and academia, which promotes the use and recycling of compostable materials via composting in large scale facilities.

McNairn's offering includes select bags and wraps from the following:

- Bleached Grease Resistant with a maximum 19# basis weight (Formula 072409-A)
- Natural Dry Wax with a maximum 24# basis weight (Formula 072409-B)
- Bleached Dry Wax with a maximum 21# basis weight (Formula 072409-C)

This certification, along with the renewable materials we use, helps us to close the loop between source and end of life cycles.
