

So Strong You Can
“Hippo Sak It”!

To **Hippo Sak It** Is To **Fully Pack It!**

Hippo Sak It

to Lift Your Bottom-Line!

*Hippo Sak™ Increases Items per Bag,
Reduces Bag Usage and Overall Bag Costs!*

**Hippo Sak™ is
Strong
Enough to hold
More Groceries
than a Paper
or Reusable Bag!**

Innovative Tuff Strip makes Hippo Saks' bottom seal **50+** times stronger than regular seals and increases film strength **by 40%** so that a Hippo Sak™ can hold 6 gallons (50lbs) of water without leaking!

Non-reinforced bags easily get holes along the bottom seal and will leak with only 2.5 gallons of water!

ONLY Incredibly Strong Hippo Sak™ Lets You Hippo Sak It!

Hippo Sak It

to Protect Our Environment!

Hippo Saks are More Eco-Friendly than Paper Bags and Ordinary T-Shirt Bags

- Reusable for shopping or at home
- Made from at least 10% recycled material
- 100% recyclable at the end of its lifetime
- Lower overall carbon footprint than paper bags
- Holds more items than a paper bag but require only 1/4th the energy and 1/20th the water to produce
- Made only in the USA from domestic natural gas
- Non-absorbency reduces bacteria transmission for safer food handling

Grocery Bag Environmental Impact Report Card

	Hippo Sak	Reusable Bags	Paper Bags	T-Shirt Bags
Recyclable	A	F	B	A
Items/Bag	A	A	A	F
Reusable	B	A	C	C
Made from Recycled Materials	B	B	B	B
Not Clogging Landfills	B	B	F	C
Energy/Water Required to Produce	A	A	F	A
Manufactured to U.S. Environmental Standards	A	F	C	C
GreenHouse Emissions During Decomposition	A	C	F	A
Zero or Insignificant Heavy Metal Content	A	C	A	B
Street Pollution Problem	F	A	B	F
Non-Absorbency Reduces Bacteria Transmission	Yes	No	No	Yes
Made in USA	Yes	Not Usually	Yes	Not Always
Made from Domestic Natural Gas or Raw Materials (Not Imported Oil)	Yes	Not Usually	Yes	Not Always
