Foam Cups and Fusion Cups

• superior insulation • one piece construction • space saving design • complete range of sizes •

Foam Cups, Containers, and Bowls

Dart foam cups provide customers with unequalled quality, value, and convenience. Beverages maintain their original temperature longer when served in foam cups than when served in alternative cups. The result is longer lasting freshness and flavor. A complete range of cup sizes and styles satisfies any beverage application.

Dart foam food containers and bowls are the obvious choice for serving almost any kind of food or dessert. When combined with a secure Dart lid, nothing retains freshness and food quality better.

Cups available in 4 through 44 ounce capacities.

Food containers available in 3.5 through 44 ounce capacities.

Bowls available in 3.5 through 12 ounce capacities.

Advantages of Foam

- Can be used for both hot and cold applications—no double inventory.
- Beverages maintain their proper serving temperature longer.
- Increased insulation over paper cups.
- Less condensation on the cup surface when filled with cold drinks.
- Is comfortable and cool to the touch when filled with hot beverages.
- Since 1998, Dart has recycled over 60 million pounds of post-consumer and post-industrial foam. Visit www.dart.biz to learn more about foam recycling.

• superb graphics • superior insulation • strong sidewall • molded rolled lip • top to bottom coverage •

Fusion cups offer superb graphics and superior insulation for your upscale gourmet beverage program. The result: The most appealing and inviting custom printed gourmet beverage package available today, certain to increase customer satisfaction as well as enhance your business image. The FotoFinish™ magazine-quality print surface allows for detailed graphics, top-to-bottom coverage, and amazing process printing unlike any other hot cup. The ThermoThin™ core maintains hot and cold beverage serving temperature and taste, while keeping the cup sidewall cool to the touch.

Available printed only in 12 through 24 ounce capacities.

Escape[™] Stock Printed Cups

The Fusion™ Escape stock print offers full print coverage and intricate graphics all surrounding Fusion's unique ThermoThin™ core. Escape is available in four sizes with color coded ounce capacity indicators, making it easy to distinguish between cup sizes. And, all four cup sizes accept a single lid size, reducing the need for added inventory.

Available in 12 through 24 ounce capacities.

• specialty lids • secure pinch fit • no leaks • for hot and cold drinks • large variety of styles •

Lids

Choose from our large selection of lid styles and sizes to top off any Dart cup or container. The “pinch fit” design ensures a tight lid seal by gripping the cup on both the inside and outer surface. From purely functional, to those designed for specialty applications, Dart lids have got you covered. Here are just a few:

Sip Thru

The patented design allows easy sipping of beverages while reducing the chance of spills.

Cappuccino

The standard for specialty coffees. The elevated platform is perfect for drinks with froth or toppings.

LIFT N’ LOCK

The tear tab style is great for a wide variety of hot beverages. Also available with a straw slot.

Clear Dome

Accommodates mounded toppings while providing exceptional clarity.

Available with or without an opening for straw use.

Perfect alone, or use with a foam lid to layer your To-Go items, such as bread on top of soup.

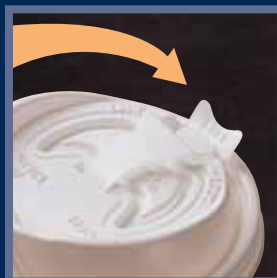

• one-of-a-kind • reclosable • easy to use • secure seal • locking tabs • reduced spills •

Optima combines convenience with security to create a lid that is truly unique. When closed, it results in a completely sealed beverage—no open drink hole means less chance of spilling or leaking. When ready to drink, users just pull the tab open and lock it back, securely out of the way. But, unlike other lids, Optima can be opened *and* reclosed—not just once, but again and again. Give it a try and you'll see why no other cup lid stacks up to Optima in meeting the demands of coffee drinkers on-the-go.

LIFT LOCK & RECLOSE

Security, convenience,
and quality in three
easy steps.

• vibrant colors • enhanced presentation • low minimum order quantities • increased market visibility •

Custom Printed Cups and Containers

When does the cup in a customer’s hand deliver more than just the beverage it contains? When it is printed by Dart. Printed cups and containers deliver increased awareness of your business or product and an enhanced public image for your operation. Custom printed cups can be tailored to deliver the specific message you want in bold, vibrant color. If you’re not sure custom print is for you, consider one of our stock printed cup lines, available in a variety of popular designs.

Custom printing is available on foam cups, clear and white plastic cups, translucent cups, and deli containers.

Stock Printed Cups

Add color and class to your operation with one of Dart’s popular stock prints. Available in a wide selection of sizes, stock printed foam cups offer a cost-effective alternative to custom printing. Dart stock print designs are also visibly coded to allow for easy identification of cup size. And, no minimum order quantities apply when stock prints are included in a normal distributor order.

The RPM printed design is not available in all areas.

Café G

Coca-Cola

• sharper print definition • superior insulation • upscale image • economical stock prints •

*Thermo*Glaze® Premium Insulated Cups

Take a step up to Thermo-Glaze. Used by many of the nation's most prominent dining establishments, convenience store chains, and quick service restaurants, Thermo-Glaze is Dart's premium line of foam cups. What makes Thermo-Glaze a premium product? Extra durable construction for starters. Add to that a high-gloss finish which enhances the feel of the cup and helps display custom printing at its best. The sleek, contemporary look of the cup's design makes a positive impression on customers while providing them with a more comfortable and enjoyable drinking experience for both hot and cold beverages.

Available printed only, in 4 through 32 ounce capacities.

Plastic Cups and Lids

• crystal clear • pedestal cup • crush resistant • rolled rim • contact clarity • custom printing •

CONEX[®] CLASSIC Premium Clear Cups and Lids

The crystal clarity of Conex Classic premium clear cups allows the full appeal of beverages to show through, creating an irresistible product presentation and increasing impulse purchases. Conex Classic is made of sturdy, yet flexible, crack-resistant PETE to withstand the demands of countless product applications such as frozen drinks, fruit smoothies, iced coffee, beer, and much more. Consider custom printing Conex Classic to increase the visibility of your business in the marketplace. A selection of clear, snap-tight lids complete the package.

Available in 5 through 32 ounce capacities.

Made with 20% Post-Consumer Recycled PETE
All the great qualities of Conex Classic...only greener!

- Made from post-consumer recycled beverage bottles
- Fewer of our earth's resources needed for production than new plastic
- Less energy and water needed for production and fewer greenhouse gas emissions than new plastic

Available in 9 through 24 ounce capacities.

• lid interchangeability • increased clarity • shatterproof • easy separation • most popular sizes •

Made from polypropylene, Conex ClearPro cups are durable and crack-resistant while maintaining good clarity for complete product visibility. Great for dine-in or self-serve fountain beverages. One lid fits four different cup sizes, minimizing storage requirements. Custom printing is available in up to six colors to better brand your business. Cups offered in clear or white.

Available in 12 through 32 ounce capacities.

CONEX® Translucent Cups and Lids

Conex translucent plastic cups offer an economical alternative to clear cups while still delivering the quality and dependability you count on. Their ribbed sidewalls increase cup strength and provide a no-slip grip when handling. Contact clarity makes beverage identification quick and easy for both operators and customers. Just for custom printing, we offer a separate line of smooth-wall translucent cups, perfect for displaying your logo or message.

Available in 3.5 through 32 ounce capacities.

Portion Containers and Dinnerware

- easy separation
- durable
- compatible clear lids
- deli combo-paks
- most popular sizes

CONEX[®] *Complements* **Portion Containers and Lids**

Conex Complements portion containers and lids provide the perfect portion for any purpose. Made of durable, crack-resistant polypropylene, they're ideal for the many diverse dining and carryout applications in today's foodservice market. For dining, Conex Complements can serve anything from small side dishes to salad dressing and whipped butter. For carryout, when coupled with a clear lid, they safely transport side sauces such as ranch dressing, marinara, and salsa.

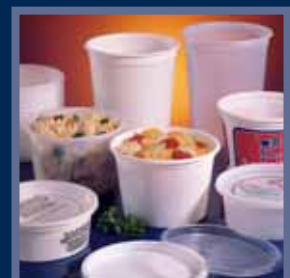

Available in 0.5 through 5.5 ounce capacities, with five popular sizes also available in black.

CONEX[®] **Deli Containers and Lids**

Prepared salads, desserts, and other items from the deli counter are the perfect fit for Conex Deli Containers, offered in three common sizes. A single lid size, available in a variety of styles, securely seals all containers to keep foods safely packaged through the checkout lane and into the home. Both deli containers and lids can be custom printed.

Available in 8, 16, and 32 ounce capacities.

- upscale laminated • economical non-laminated • keeps food fresh • appealing rim design •

QUIET CLASSIC®

Laminated Foam Dinnerware

Laminated for extra strength and added gloss, Quiet Classic provides an upscale look while the non-absorbent surface ensures problem-free dining. Available in white, honey, and black.

Plates available in 6 through 10 inch diameters, bowls in 3.5 through 12 ounce capacities.

CONCORDE® Non-Laminated Foam Dinnerware

Concorde offers an economical alternative to Quiet Classic, but can also be mixed with Quiet Classic items to retain a matched place setting. Available in white.

FAMOUS SERVICE®

Impact Plastic Dinnerware

The “crystal cap” layer on Famous Service plates and bowls creates a non-absorbent, cut-resistant surface with a china-like finish. Perfect for the buffet line.

Dome Covers for Dinnerware

If pre-packaging or transporting meals is required, dinnerware dome covers from Dart are just what you need. They protect food while keeping it fresh and appetizing. Clear covers allow meals to be seen, increasing impulse purchases and enhancing merchandising presence.

Covers fit 3.5 through 12 ounce bowls and 6 and 9 inch plates and platters.

Foam Hinged Lid Containers and Cutlery

• removable lid • double lock closure • insulated • no accidental openings • keeps food hot •

Foam Hinged Lid Containers

Don't take a chance with your take-out. Dart foam hinged lid containers keep take-out foods hot and fresh while ensuring safe and secure transport from restaurant to home. A dependable perimeter seal is key to reducing leaks and avoiding unintentional container openings. The recessed lid and platform base increase stability when there is a need to stack multiple containers. Single compartment or multi-compartment containers are available in a variety of shapes and sizes to accommodate a wide assortment of applications. Vented containers are also available, allowing hot food to better retain its freshness.

Available in 5 through 10 inch widths.

Black Foam Hinged Lid Containers

Enhance your establishment's image with these stylish, black foam hinged lid containers.

Offered in several sizes, with single or three-compartment designs, with or without the patented Performer hinge.

Available in 6 through 9.5 inch widths.

• maintains freshness • recessed lid for stacking • attractive break-resistant cutlery • durable •

Style Setter®

Medium Weight Plastic Cutlery

STYLESELECT™

Available in white, honey, and black, Dart medium weight cutlery features a clean, modern design with the durability to stand up to any use. Each cutlery piece is engineered for ideal size, balance, and strength.

BONUS® Light Weight Plastic Cutlery

Provide an attractive and economical table setting with Bonus light weight cutlery. Like Style Setter, Bonus cutlery pieces resist breaking, even under the most stressful use.

PERFORMER™

The one-of-a-kind, patented perforated hinge found on Dart foam hinged lid containers means less clutter while dining and an extra plate for meal sharing.

Clear Hinged Lid Containers

• exceptional clarity • wide side ribbing • one piece design • easy opening tabs • retains freshness •

ClearSeal® Clear Hinged Bar-Lock Containers

Lock in freshness with ClearSeal's exclusive perimeter seal, designed to maximize product freshness and reduce leaks. Bar-locks provide a snap-tight secure closure while easily accessible gripper tabs simplify opening. ClearSeal is the clear choice for accentuating the full appeal of your food with confidence.

Available in 6 through 8 inch widths.

SHOWTIME® Clear Hinged Lid Containers

Heavy duty Showtime containers enhance product presentation to help generate more "grab and go" impulse sales. The hinged lid means less product inventory to maintain and no possible confusion when lidding the containers. Corner ribbing and seven-lock closure ensures a strong, secure package when closed.

Available in 5 through 10 inch widths.

• label window • pan ledge • crush resistant • increases impulse purchases • secure locking •

StayLock. Clear Hinged Lid Containers

Create a truly tempting display with StayLock clear hinged lid containers. StayLock containers are suited to package a multitude of items, including bakery products such as cookies, pound cake, pies, and strudel. Dual bar-locks create an audible snap when each container is closed, signaling a securely contained package. Convenient tabs make opening the container a breeze. A label window is featured on each StayLock container for identification of contents or for placement of a tamper evident seal. StayLock also features a positive lock stacking platform for stable merchandising displays.

- Chamfered corners increase strength and offer more product visibility.
- Sidewall ribbing provides maximum strength for durability and crush resistance.
- Opening tab and dimple allow for easy opening.

Available in 5 through 14 inch widths.

Clear Containers and Bowls

- leak-resistant perimeter seal • label window • convenient combo-paks • stackable • easy opening •

CLEARPAC® Clear Containers and Lids

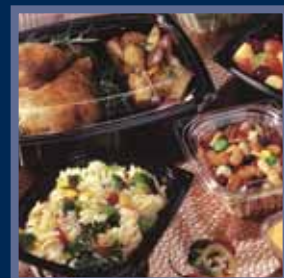

ClearPac containers provide a transparent showcase for merchandising a variety of foods such as salads, sandwiches, bulk candy, and more. The wide side ribbing adds extra strength and enhances product appeal through increased visibility of contents. “Snap-On” lids create a secure seal, locking in freshness and giving customers confidence when displaying or transporting items. To keep things simple, ClearPac containers and flat lids are offered in convenient Combo-Paks—an equal number of containers and matching lids packed together in one case.

Available in 4 through 64 ounce capacities.

CLEARPAC® Black Containers

ClearPac black containers provide an attractive, upscale presentation that increases the perceived value of pre-packaged foods. Combine a black container with a flat or dome clear lid to create a distinctive home meal replacement package.

Available in 4 through 32 ounce capacities.

• crystal cut design • complete food visibility • large variety of sizes • clear dome and flat lids •

PresentaBowls® Clear Bowls and Lids

The crystal-cut design of PresentaBowls creates an elegant, upscale presentation, while still allowing for easy identification of contents. Clear lids, both flat and dome, lock in freshness by creating a secure, leak-resistant seal. A stacking recess on the bottom of each bowl helps maintain stability for storing or displaying multiple bowls. PresentaBowls are an excellent choice for pre-packing a large assortment of foods and snacks such as salads, baked goods, candy, and fruit. Bowls and lids can be purchased separately or, to simplify inventories, consider our one-piece hinged lid PresentaBowls.

Available in 8 through 64 ounce capacities.

- Elegant crystal-cut design.
- Flat and dome lids seal tightly to avoid leaks.
- Combo-paks offered for simplified inventory management.

Our quality products are designed with you in mind

Since 1960, Dart Container Corporation has been a leading manufacturer of insulated foam cups and containers. Today, we are the largest such manufacturer in the world, supplying not only foam cups and containers, but a comprehensive line of single-use food and beverage packaging products to national and international foodservice markets. Our goal is to provide customers with the products they need—products that meet the demands of today's varied food and beverage applications—while maintaining the highest level of quality and service available in the industry. To ensure this, we personally manage each step of product manufacturing and distribution; from the processing of raw materials all the way through to the ultimate delivery of finished products on our own fleet of trucks.
