

# NATURE'S CHOICE™

## FSC Certified Paper Products (Forest Stewardship Council)

We have chosen to use FSC Certified paper in our new product offering, NATURE'S CHOICE, to help us with our quest toward sustainability. McNairn defines "sustainability" as a means of meeting the needs of the present without compromising the ability of future generations to meet their own needs. NATURE'S CHOICE FSC certified products are a reflection of our commitment to this principle.

Our quest begins with the resources our products originate from. Our FSC labeled products are independently certified to assure consumers that they come from responsibly managed forests that meet the social, economic and ecological needs of the present and future generations.

This offering is a result of our continuous improvement efforts to reduce our impact on the environment. We've chosen products for this line that represent the best environmentally friendly offerings possible, such as our greaseproof products that are produced without fluorocarbons or petroleum ingredients and our dry wax items that reduce petroleum wax by using soy wax, thereby increasing the renewable content.

Obtaining FSC certification is important to us because forests provide fresh air, clean water and also help combat global warming. They provide shelter, food, medicine and important natural resources such as timber and paper. If managed responsibly, forest and plantations benefit indigenous people, the global community and the environment.

We must all do our part to protect our environment and we are starting with the forest.
