

McNairn CERTIFICATIONS

McNairn Packaging products are naturally environmentally friendly. With renewable resources as the basis of our product offering, McNairn has obtained FSC (Forest Stewardship Council™) & BPI (Biodegradable Products Institute) product certification to provide our customers with authentic and professional-standard certified products.

BPI labeled products are intended to be composted in a municipal or commercial facility. Check with local officials to determine if a program exists in your community.

The mark of responsible forestry

NATURE'S CHOICE™

FSC Certified
Paper Products

We have chosen to use FSC® Certified paper in our Natures Choice™ product offering, along with the requirements of BPI certification for compostability, to help us with our quest toward sustainability. McNairn defines "sustainability" as a means of meeting the needs of the present without compromising the ability of future generations to meet their own needs. Nature's Choice™ products are a reflection of our commitment to this principle.

Our quest begins with the resources our products originate from. Our FSC® labeled products are independently certified to assure consumers that they come from responsibly managed forests that meet the social, economic and ecological needs of the present and future generations. This offering is a result of our continuous improvement efforts to reduce our impact on the environment. We've chosen products for this line that represent the best environmentally friendly offerings possible, such as our greaseproof products that are produced without fluorocarbons

Obtaining FSC® certification is important to us because forests provide fresh air, clean water and also help combat global warming. They provide shelter, food, medicine and important natural resources such as timber and paper. If managed responsibly, forest and plantations benefit indigenous people, the global community and the environment. We must all do our part to protect our environment and we are starting with the forest.

BPI certification assures you that this product can be returned to the earth to nourish another lifecycle. BPI products are intended to be composted in a municipal or commercial facility. Check with local officials to determine if a program exists in your community.
